# Photodermatology

**James Ferguson, MD, FRCP**

Photobiology Unit, Ninewells Hospital, Dundee, UK.

**Jeffrey S. Dover, MD, FRCPC**

Skin Care Physicians of Chestnut Hill, Chestnut Hill, MA, USA.

## **Description:**

A clear and straightforward introduction to light related skin diseases - including the use of lasers, covering their investigation, diagnosis and management. Each light sensitive disorder and each type of phototherapy is underpinned with the principles of the underlying photophysics, chemistry and biology. Medical and nursing staff and technicians will find valuable insights combined with an ease of understanding that will give them a good working overview of the light related areas of dermatology.

## **Contents:**

Contents

- 1 Introduction
  - 2 Elementary Photobiology and Photophysics
  - 3 Phototest Equipment
  - 4 Photoprotection
  - 5 Polymorphic Light Eruption
  - 6 Hydroa Vacciniiforme
  - 7 Chronic Actinic Dermatitis
  - 8 Solar Urticaria
  - 9 Actinic Prurigo
  - 10 Juvenile Springtime Eruption
  - 11 Photoaggravated Dermatoses
  - 12 Drug Induced Photosensitivity
  - 13 Photoallergy/Photopatch Testing
  - 14 Phytophotodermatitis
  - 15 Photohistopathology
  - 16 Porphyrin Biochemistry: Laboratory Studies
  - 17 Genophotodermatoses
  - 18 The Cutaneous Porphyrrias
  - 19 Ultraviolet Phototherapy and Photochemotherapy of Skin Disease
  - 20 Photodynamic Therapy
  - 21 Laser-Tissue Interactions
  - 22 Laser Therapy for Vascular Lesions
  - 23 Laser Therapy for Pigmented Lesions and Tattoos
  - 24 Ablative and Non-ablative Laser Skin Resurfacing
  - 25 Laser Hair Removal
- Index

160 pp  
261 x 194  
278 Illustrations, colour  
and 36 Tables, unspecified  
Paperback  
ISBN: 978-1-84076-135-1  
Price: £29.95  
Publication: August 2010

## **Subject:**

Dermatology

## **Readership:**

Doctors, nurses and technicians working in dermatology, primary care physicians

## **Key Features:**

- Deals briefly and clearly with a topic clinicians find difficult
- Includes scientific underpinning of clinical topics
- Only book on photodermatology in colour with photos and diagrams
